

## January News & Updates

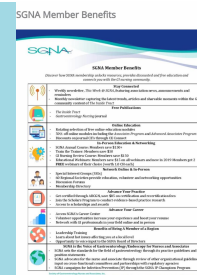

Greetings from NTSGNA Officers! We're off to a great start in the new year, with plenty of opportunities to learn more about continuing education and updates. In the coming weeks, keep an eye on our website for further details. We will find a method to perform our continuing education and acquire additional contact hours regardless of the escalating rates of covid.

**Saturday, January 22, 2022**

**9am – 3 pm (ET)**

Join Dr. Casey Graybeal and Dr. Rasa Zarnegar for Developing a Reflux Center – A surgeons Perspective. This live-streamed course will explore how to build a reflux center of care and how to manage the patient

from evaluation through treatment to post-operative care in the community and academic settings. Through case based presentations we will explore best practices in evaluating reflux patients using various diagnostic modalities including ManoScan™ esophageal manometry testing system, Bravo™ reflux testing system, and Endoflip™ impedance planimetry system. We will conclude the program with a discussion on the treatment and post-operative care of the esophageal patient.
