

OUR FIGHT AGAINST COVID-19 IS NOT OVER!

July is a month which reminds us to reflect on our independence. As the preamble of the declaration of independence states, " We hold these truth to be self-evident, that all men are created equal, with certain unalienable rights, that among these are Life, Liberty and pursuit of Happiness."

Our lives now are far from what we were used to before COVID-19. We are all yearning for the freedom and the lifestyle we had. But to enjoy that freedom and life, first we

must all stay healthy. We need to wear **MASK**. It's fulfilling a social contract. It benefits not only us and the people we know and love but the whole society.

Learning Opportunities

Thank you to everyone who joined us in The Boston Scientific free webinar Superbugs and Slime. Special thank you to Grace Thornhill, PhD., Jon Crush and Jeremy Eads. It was a very informative webinar and we learned a lot!

For more educational opportunities see the list below:

- **Steris University**

Steris university is an online resource which offers CE credits focused around care and cleaning. The offering is fairly broad but does offer CE's in the area of Endoscope cleaning. Follow the link below, there is a registration requirement for each staff member looking for credit but it can be done via any computer at home or at work.
